2. Organisational details

Vasudha Vikas Sansthan came out from the concern and commitment of a group of youth active in social development work and the socio-economic problems of the area made them realise to form an independent organisation. It was initiated by a group of young professionals from multidisciplinary background in the year 2000, got formally registered in the same year and started working in Dhar district of Madhya Pradesh with youth and girls to deal with the issues **Water sanitation Hygien (WASH), Integrated Watershed Management, literacy, health and hygiene**. Gradually organization extended its operational area in other tribal concentrated districts of Madhya Pradesh and Chhatisgarh and addressing the issues related to **child rights and their basic health and nutrition rights**. Organisation is working with the reference community like tribal, women, children and other vulnerable communities. Organisation has focused its development interventions with issues of concern like **Safe Drinking water, Watershed Management & Livelihoods promotion, Health and Hygiene, Water and Sanitation, Nutrition, Gender Equality-mainstreaming and women empowerment, decentralized planning and governance at PRIs**. Organisation has earned working experience of 20 years in the field of social development.

Organization is established and registered on 3rd Nov 2000 as a "Society" under firms and society act of India.

Organization is registered with the following institutions and departments.
